Add me to your list of "Library Lovers!"

The purpose of the "I Love Libraries and I Vote!" program is to create awareness by those running for public office at the local, state, and national levels in 2004 that there are many voters who care strongly about libraries of all types. The ultimate goal is better support for libraries.

If you would like to be contacted for future advocacy activities, including alerts about legislative issues that will affect your local library service, please sign up below. Thank you!
